One of the most meaningful ways we are driving positive change is through the sharing of our Autistic lived experience together with mentoring thousands of Autistic young people across a range of educational settings.

Our team members know what it's like to be that Autistic student finding their way.. so we deliver their personal stories and insights to help teachers, parents and peers create an environment where Autistic young people feel safe, understood and accepted.

In addition to our renowned Autistic-led mentoring packages via our I CAN School® program, we offer a range of services that are particularly relevant for school communities including:

We deliver practical workshops for teachers and staff based on our knowledge of effective communication, increasing confidence, and leveraging the individual strengths of Autistic young people. We specialise in strategies that are respectful, quiet and empowering, as opposed to heavy-handed or stigmatising.

Sessions range from 1-hour (including after school) to half or full day and are offered onsite for the convenience of participants.
