

My name is **Evangeline** (but my friends just call me Eve!)

I'm currently finishing my final year of a Bachelor in Primary Education. I love working for I CAN because my pedagogical practice centres on providing support for diverse learners, particularly those who face similar challenges to those I encountered as an Autistic student, diagnosed in Grade 3.

I'm 19 years old and studying a Bachelor of Science with an extended major in Biomedical Science; working towards studying medicine from 2023. I have autism and ADHD, and have spent years pushing through many challenging scenarios and am at a stage in my life where I can empathise with and help the young people in my role at I CAN.

My name is **Ellie**

My name is **Eban**

I'm studying psychology, with the hope of specializing in working with adolescents. I'm proud to work for I CAN because I didn't have access to a program like it when I was younger so I want to help give other Autistic children better opportunities.

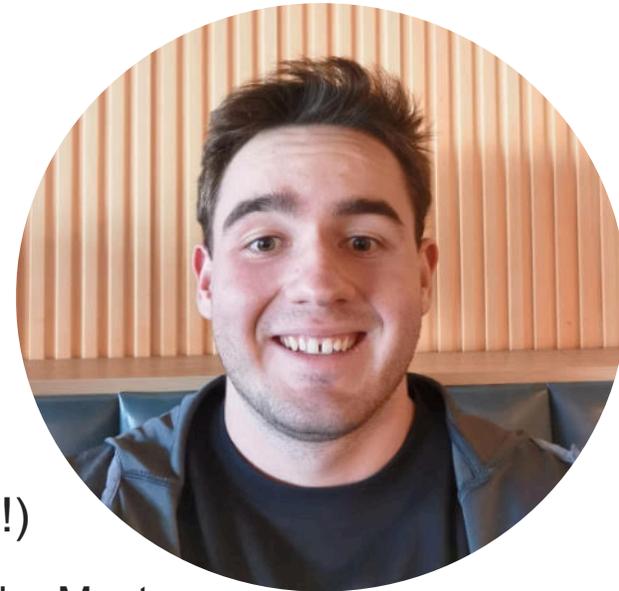

My name is **Ella**

I'm a politics, philosophy and economics graduate hoping to pursue a PhD. I have worked with children and young people in various capacities since my teenage years and I have especially enjoyed working with autistic children since long before I received my own diagnosis as an adult. I love working for I CAN as it gives me the opportunity to make a difference in the lives of young people just like me!

My name is **Max**

I'm 19 years old and I am a university student studying Property Economics. I'm very proud to be a part of the I CAN team because I am able to work with like minded students on the spectrum and discuss how we can succeed!

My name is **Jessica** (and I don't enjoy having my picture taken!)

I have completed a Bachelor of Behavioural Science (Psychology) and a Master of Social Work. I have worked in various roles with autistic/neurodiverse young people including as a support worker and group facilitator. I've also published an article about promoting neurodiversity within social work practice and hope to pursue further research in this area. I am proud to be a part of the I CAN Network as it allows me to connect with others around my own neurodivergent identity.

My name is **Arthur**

After some time working in libraries, including school libraries across all year levels, I began work as a Mentor with I CAN in 2018. I have a passion for creative writing, video games and anime. I am also openly LGBT+ and love helping LGBT + Autistic mentees develop strong sense of self-esteem and identity.
